ON THE CRITICAL PATH

A Day in the Life of a Technology Consultant

DELIVERY · TOP TIPS · ADOPTION · WORKPLACE **FRIDAY 31 JULY 2026**

YOUR COSTS, EXPLAINED

Daily One Firm AI statements put teams in control of consumption.

Delivery leads can now receive a daily One Firm AI statement, with consumption assigned to the relevant project or cost centre.

Each statement includes an automated commentary on changes in usage. Colleagues can request a more detailed explanation directly from One Firm AI.

To support consistent oversight, every project should generate a statement, including projects with no other activity that day.

The cost of producing the statement will appear on the next one.

ADOPTION REACHES EVERY DESK

Latest licence allocation completes coverage across participating teams.

Every colleague in participating teams now has an allocated One Firm AI licence, bringing the access rollout to full coverage.

For consistency, the adoption dashboard will use allocated licences while usage data is being established. Teams can therefore report against a single, stable measure.

Colleagues who have not yet signed in will receive a thank-you message and activation instructions.

TOP TIPS

From the Corporate Comms desk

1 GRADUATES: Get a partner to read your report. Misspell their name on the cover.

2 EXECUTIVES: Encourage open debate. Begin by explaining which answer would disappoint you.

3 CORPORATE COMMS: Make responsibility clear. Replace every name with “we”.

CORRECTIONS & CLARIFICATIONS

The annual refresher remains optional. Colleagues may choose which session to attend.
